Lo, the more we prayed for distress the more three wing prosperity.

Lo, the more we prayed for distress the more three wing prosperity.

The crops were good, and the prices the Atlantic than on the other side.

As we remember, provisions were somewhat cheaper before the War, but we had not the means to procure them. The low wages then paid, and the system by which they were paid, did not meet the necessary wants and comforts of the working classes. You seldom saw in those days workmen paid off in full; it was partial payment once or twice, or portions in a month, as the case might be. Now it is the rule to pay in full. The custom then was "market money" on Friday evenings—from \$2.00 to \$5.00 being the average sum paid—which was charged on the he market being full of imitations of the name McLane, spelled differently but

workmen paid off in full; it was partial payment once or twice, or portions in a month, as the case might be. Now it is the rule to pay in full. The custom then was "market money" on Friday evenings—from \$2 00 to \$5 00 being the average sum paid—which was charged on the workman's pass book, and the balance was consumed in orders on merchants, tailors, shoemakers and coal dealers. In those days the workmen had, generally, no choice of either place or price in the matter of using these orders. A workingman had no chance to accumulate sufficient means toward procuring a little home for himself and family. Lots worth to-day \$1,000, could and were then purchased for \$150 and \$200, but workmen could not buy them.

How was it with the employer in those days? Little better than with the employed. The employers worked under great disadvantsge; they were all the time hard run for sufficient working capital. Bills payable were before their eyes all the day and in their visions at night. These lines, touching this fact, will appeal to the memory of many to-day who are now independent, and they can corroborate the truth of my remembrance. Accommodation paper, "flying kite acceptances," (you endorse for me and I will endorse for you), were common, and men were compelled often to overcheck. The custom was common among the banks to notify certain parties, "Your account is overdrawn." We know that this is the rule still, but comparatively seldom is it required. And you don't see those bank notices written in red ink, saying "your note. for \$—" is due on such a date. They have to a great extent disappeared, and with them the notes they represented. How was it with the employer in tho PERRY DAVIS' PAIN-KILLER They have to a great extent disappeared, and with them the notes they represented. The manufacturer then was poor, and the people he sold to were poor. The fact is the whole country was poor comparing their condition with what it is now. And when a manfacturer got a check or bills en a bank untside his section, he had to turn to his counterful determined. en a bank antside his section, he had to turn to his counterfeit detector, and reporter; and satisfy himself of its intrinsic value. And when he took stock and balance at the end of six or twelve months he found, for years, that this discount percent consumed all his property, and considerable of the charges in that account were on loans on which he paid 1 and 12 per cent per month. Things are now reversed, and a part of the profits now consist in gain from the interest and discount per cent. The manufacturer and merchant discounts his own bills. I wonder if John Sherman cannot explain how this came about.

Workingmen are now paid off in full once or twice or four times a month. Or-ders are a thing of the past, and working-men who were formerly harassed in paymen who were former; marassed in paying a house rent of \$4 per month, now reside in homes of their own worth from \$1,000 to \$5,000—all paid for. Where have all these sewing machines, cabinet organs and planos in the workingman's dwelling come from? And what has worked the come from? And what has worked the change in the appearance of these men, and what of their wives and children as compared with twenty years ago, when they were only recognized as the "hewers of wood and drawers of water," or the 'mud sills" of society. I tell you many of those who branded those epithets on them are to-day bewailing, "To dig I can not, and to beg I'm ashamed."

The experience of the past ought in a certain measure to govern us in the future. We are now passing through a crisis. We are solving a problem. The question is, what form of administration in our national affairs has done most for the general prosperity of the country, and the work-

prosperity of the country, and the work-ingmen in particular? To decide this we must become intelligent. One thing is cermust become intelligent. One thing is certain, the improvements only began when the Republican ideas were carried out, and progress and improvement has been advancing till this day under Republican rule. But what was the condition of our country when the Republican party took hold of the ship of State? She was tossing up and down in the war storm, and the breakers threatened to tear her in pieces. A Solid South attempted by force of arms to wrench assunder the band which bound the States as one. Thousands of free WASTING DISEASES

A Word to Gur Readers.

When you read of a remedy that will cure all diseases, beware of it; but when cure all diseases, beware of it; but when you read of a pure vegetable compound which claims to cure only certain parts of the body, and furnishes high proof that it does this, you can safely try it and with the assurance that it will help you. This is just what Warner's Safe Kidney and Liver Cure does. It cures all troubles of the lower portion of the body and none others. It will not help the tooth-ache, ear-ache nor consumption, but it will put your body in a vigorous and healthy state where you can enjoy life and appreciate its good things. Try it.

The "returning board" of this county, consisting of Mr. C. M. Williams and Joseph Showalter, (Democrats) and Mr. Fred Bowers, (Republican) have been sitting since Monday last examining the returns, preparatory to issuing their certificates of election. Most of the votes of the county have been examined on inquiries for district offices, such as Justices and constables. Font Smith's strikers have been in attendance all the time, trying to get votes thrown out, or some error which will entitle him to the certificate of election, thereby compelling Mr. Furbes to contest. He has gained one vote so far as the count has gone, and I hear has demanded an examination of the poll books of the entire county. Whether it will be done or not I cannot say.

The Best I Ever Enew Of.

J. G. Starkey, a prominent and influential
elitien of Iowa City, says; "I have had the
dyspepsia and liver complaint for several
years, and have used every remedy I could
hear of, without any relief whatever, until I
saw your Shiloh's Vitalizer advertised in our saw your Smion's Vitalizer advertised in our paper, and was persuaded to try it. I am hap-py to state that it has entirely cured me. It is certainly the best remedy I ever knew of." Price 75 cts. Sold by E. Bocking, Agent, Odd Fellow's Hall, and Chas. Moenkemoeller.

The pride of a mother, the life and joy of a home, are her children, hence her grief when sickness enters and takes them away. Take warning then, that you are running a terrible risk, if they have a cough, croup or whooping cough, which leads to consumption, if you do not attend to it at once. Shiloh's Consumption Cure is guaranteed to cure them. Price 10 cents, 50 cents and \$1 00. For lame back, side or chest, use Shiloh's Porous Plaster. Price 25 cts. Sold by E.
